

Ta and teti rhythms

We need to make some rhythms for you to practice.

Remember - xx = teti x = ta

You put a ta or a teti in each box.

You practice saying the numbers to a steady pulse.

You practice using your feet to tap the steady pulse, counting the numbers in your thinking voice.

You say your rhythm in time to the steady pulse.

Here is an example for you:

1	2	3	4
X	XX	XX	X
Ta	teti	teti	ta

Try the grid above then make some of your own. You can even draw them on big paper and decorate with musical pictures to bring back and show me.

1	2	3	4
XX	XX	X	XX
Teti	teti	ta	teti
