

Week beginning

19/10/20

Year 3 Newsletter

STAR moments

This week has been a little different for Year 3 as we have been working from home. However, this has not stopped us from completing some fantastic learning through the use of Google Classroom, as well as experiencing some LIVE lessons!

The children have really impressed us with how they have taken to using the Google Classroom. They are starting to become Digital Wizards!

This week, we had a new experience for both teachers and children as we participated in LIVE lessons. This was an incredible experience and it was fantastic to see you all engaging with work despite being at home.

Over the past few weeks, we have been focusing on speech writing. This week we have written our own speeches and next week we will move on to create and record our own combined class speech!

This week's learning..

This week in Year 3 we will be rehearsing our speeches in English to ensure they are performance ready for our annual speech contest!

As Mathematicians we will close this half term by exploring multiplication and division methods.

As Historians we will create a factfile to detail what we have learnt about Jesse Owens.

As Artists we will finalise our Jesse Owens portraits using charcoal and graphite pencils. They are looking fantastic so far!

As Scientists we will consolidate our understanding of the life cycle of a plant and recap how water is transported around a plant.

Finally, in computing, we will finish and reflect upon our topic of online safety.

As Readers, we will continue exploring and finish reading The Minpins, bringing the story alive while practising reading with expression. We will be writing a book review once we finish too.

Don't forget!

P.E is on Wednesdays.

Fit Friday is on Friday.

You need to come into school dressed in your P.E. kit on Wednesdays.
Return your Home Reading book to school each Friday.

Over to you...Home learning

Maths: Your maths task is to recap and independently explore the subtraction calculations on your Google slides assignment. Which method will you use - the column method or the partitioning method? Justify your choices using the key words we've explored in our live sessions!

Spelling: This week we will be looking at Unit 6 of our spelling curriculum. Use the spelling sheet to practice and write some of your own sentences at the bottom!
