

# Week beginning

23/11/20

# Year 1 Newsletter

## STAR moments

Building on our topic of flight even more, we designed our very own kites! We also learnt about the history of kites and that they can be used for scaring people!

We played a teamwork game in RSHE. Our mission was to get water from one container to the other in the quickest time.

### Our happy leaves went to:

1H - Subhaan  
1M - Daiana  
1P - Theo  
1B - Anaya

## This weeks learning..

In phonics this week we have been learning our new rainbow sounds! They are friends that can't sit next to each other in words because they are too cheeky!

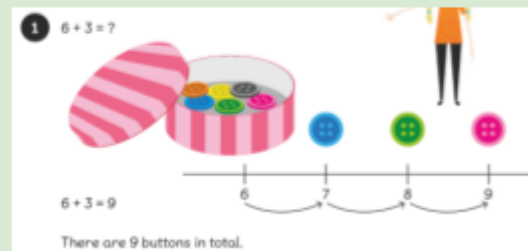

### Split Digraphs

Can you say these sounds?

In science we carried out a sinking or floating experiment and decided whether things in our classroom would sink or float. You could built on this at home over the weekend and see what you can find around the house!

In maths we looked at adding by counting on. For example if someone has 6 marbles in a box and 3 on the table, we can start at 6 and just count on. We used number lines to help with this.

# Don't forget!

Please bring your reading book back to school **every Friday** to be changed over the weekend.

P.E is on **Monday**, Fit Friday is on **Friday**, Spelling test is on **Friday**.

You need to come into school already **dressed** in your P.E. kit.

## Over to you...Home learning

Reading books and spellings sent home tonight and need to be practised every night ready for our spelling test on Friday.

Mathletics and bug club should be done every night.

Can you find something in your house that sinks and something that floats? You can let us know what you find next week!
