This term's learning...

This week is proving to be an exciting one as we move our daily learning ONLINE!

This term's topic is **THE EARTH OUR HOME** so we can't wait to explore nature, look closely at minibeasts and observe how plants change over time.

We will also learn about recycling and recycle lots of materials and resources in our creative work to play our part in looking after our home, **THE EARTH**.

ONLINE Learning

Welcome to our online learning!

Although it's sad that we won't see each other in school for some time, we are equally excited to experience Nursery's online learning.

Do have a go at exploring the proposed timetable and fun activities. We can't wait to see your lovely work on Google Classroom and Google Drive.

We will have a chance to see each other, send virtual hugs and have fun together everyday during our **LIVE carpet sessions on Google Classroom**.

Remember to **join us daily at 9.30**. We will be singing some of your loved songs, dance together, read stories and take part in fun activities.

See you all online!

Don't forget!

- Please accept the **GOOGLE CLASSROOM** invitation. Check your child's email address for this.
- Go onto Google Classroom and Google Drive to see our proposed timetable and activities.
- Take pictures/videos and upload them in your child's designated folder on Google Drive or submit them on Google Classroom to share with your teachers. They will leave you comments and challenge your learning.

More fun for your brain

A simple google search - *BBC tiny happy people, I can teach my child* and *Nursery activity ideas* - will unfold some fun and easy offline learning for all the busy bodies.
