As mathematicians we will be revising the challenging concepts of division and multiplication. We will spend time completing our chapter review to solve a range of mathematical problems! After this we will be moving on to looking at data tables and how to access the information in them.

In English, we will be using all of the knowledge and skills we have acquired over the last two weeks to create our own fact files about our solar system! As readers, we will be continuing our book, 'Kick', exploring Bud's relationship with his Grandma as well as discussing and analysing Grandma as a character.

In RE, we will be learning about how and why Adam and Eve disobeyed God and the temptations that they faced.

In RSHE, we will learn about how coping skills help us to overcome difficult situations and to calm down when we are feeling angry or upset.

As geographers, we will continue to look at the physical features of North America and the countries within the continent.

This week we will begin our live Spanish lessons with our Spanish Teacher Mr Villarrubia, please check the timetable carefully so you know what time to join him on Google Meet.
