

Week beginning

24/05/2021

Year 4 Newsletter

STAR moments

Yet another successful week of learning in year 4. We asked the children what they enjoyed most last week. Here are some of their responses. "I like science because learning about the animals made me feel like a scientist." (Eldi). "I have enjoyed learning about the Romans and their legacy, I have written a fact file to help others understand."

(Gabriel) "I found out that Boudica was a brave and inspirational woman." (Lexi)
Ask your child what they have learnt and enjoyed this week. Our happy leaf recipients for support are:

4D: Zach
4R: Zainab
4L: Jeremy

This week's learning:

In maths this week, the children will be learning about mass, volume and length. They will be finding out how to convert between different units of measure for mass, measure length in centimetres, convert between metres and centimetres and metres and kilometres. The children are also learning to recall times tables facts quickly. Try this at home, how fast can your child answer a times table question? As writers we will be completing our work on the Romans and the children will be producing a polished fact file they have been researching and creating over the past few days. As scientists we will continue learning about animals including herbivores, carnivores and omnivores. The children will create a food chain for a specific habitat which could include rainforests, oceans or the English woodland. The children will group animals according to their diet and will also be creating a food diet for zoo animals. In History we will be looking at why the Romans left Britain and continuing to look at the legacy they left behind. In R.S.H.E. the children will ask themselves, how can I complete tasks independently? We will be learning what independence looks like and how does this link to our prior learning. We will also challenge the children to complete a target.

In P.E. the children have been learning how to play cricket, they will choose and use batting and throwing skills to make the game hard for their opponents, work well as a team to make it hard for the batter and beginning to think about tactics to work as a team.

Don't forget!

As you are aware children are allowed to bring a bottle of water into school everyday to help them stay hydrated throughout the day. Please do not send your child to school with a glass bottle as they are very easily smashed when dropped.

The children will continue to participate in P.E. and music on Tuesday mornings and all children will be expected to attend school in their P.E. kit which they will wear for the whole day. Fit Friday will also continue and again children are expected in school wearing their Fit Friday t - shirts.

Over to you...Home learning

Please remember to carry on with Mathletics, Times Tables RockStars and Bug Club and to work on spellings that are sent home each week. Try to read with your child throughout the week and ask them questions about what they have read. Practise the times tables with your child, they need to recall them within 6 seconds of a question being asked. Have a go as a family, how quick are you?

Keep in touch!
