Year 4 Newsletter

STAR moments

What a fantastic week we have had. The highlight being our Design and Technology day which happened on Thursday. The children became chefs for the day, choosing ingredients for their salad and salad dressings. The children were taught to chop, peel and prepare salad vegetables and made a French dressing from scratch. The children had the opportunity to taste foods they had not tried before.

"I am going to ask my mum to buy bell peppers at home because I really enjoyed cutting and eating them"

Our happy leaf recipients for support are:

4D: Zach
4R: Reggie
4L: Aimi

This week's learning:

This week the children will continue working on our topic of Healthy Hearts. As writers the children will continue to write instruction texts around our seasonal food and healthy menu theme. In maths we will learn about lines of symmetry in 2D shapes.

This week as computer experts the children will be designing and creating their own fitness routines using the green screen to add backgrounds and using the imovie app to create a whole class fitness video. As scientists the children will be evaluating an experiment they began last week where we looked at how the shell of the egg is like the coating of our teeth that we call the enamel. The shell protects the egg just like the enamel protects our teeth. We place the egg in vinegar water and sugar to see what happens, we will share our results next week! As Geographers we will look at the school OS map. What are the features? Can the children understand and use the key effectively? We will also complete an orienteering course. Finally in RSHE this week we will be looking at how being stereotyped might make people feel. P.E. and Fit Friday will continue to play a big part in our Healthy Hearts topic this term and hopefully the sun will appear again and the rain will vanish! In P.E. the children have been busy practising their athletics skills on the field and preparing themselves for some competitive races over the coming weeks. Sports Day will happen on Thursday this week where the children will be competing in a variety of running races, throwing and jumping events. The children will be competing within their House teams to win points. There will be photos of the day so keep a lookout for these.

Don't forget!

Sports Day is on Thursday this week and children should come to school in their PE kit. Please make sure your child has some water they can drink to keep themselves hydrated during the activities they will be taking part in. It would also be a good idea for the children to bring a hat to school to protect their heads and wear some sunscreen as we will be outdoors for at least two hours.

Over to you...Home learning

Please remember to carry on with Mathletics, Times Tables RockStars and Bug Club and to work on spellings that are sent home each week. Try to read with your child throughout the week and ask them questions about what they have read. Practise the times tables with your child, they need to recall them within 6 seconds of a question being asked. Have a go as a family, how quick are you?
