Year 4 Newsletter

STAR moments

Another busy week for the children in Year 4. We have had a great time this week learning maths outdoors. The children used chalk to create obtuse, acute and right angles. Ask them what each one means. Some of you may have seen us on the field on Wednesday creating shapes with our bodies and looking for these angles within the shapes we made. On Friday the children enjoyed learning about coordinates and had great fun playing battleships on a large scale in the playground using the skills they had learnt.

Our happy leaf recipients for support are:

4D: Sonny
4R: Inayah
4L: Abdul

This week's learning:

This week the children will continue working on our topic of Healthy Hearts.

As writers the children will begin to write instruction texts around seasonal food. and creating a healthy menu.

This will link very nicely to our Design and Technology day where the children will be making a seasonal salad and salad dressing. We will look at what ingredients we will add taking in allergies and food intolerances.

As computer experts the children will continue to use the Scratch program to create a health and fitness game. As scientists we will complete our research on the scientist Jane Goodall and create a fact file about chimpanzees or another type of monkey or ape. The children will include key information about habitat, behaviour and diet. During R.E. we will consider how religions are similar and different. Children will describe some of the things that connect religious people in Newham. As Geographers we will look at the school OS map. What are the features? Can the children understand and use the key effectively? We will also complete an orienteering course. Finally in RSHE this week we will be thinking about how we show respect for people online, including when we are anonymous. The children will build on their understanding of what to do if someone is disrespectful towards them. P.E. and Fit Friday will continue to play a big part in our Healthy Hearts topic this term and hopefully the sun will appear again and the rain will vanish! In P.E. the children have been busy practising their athletics skills on the field and preparing themselves for some competitive races over the coming weeks.

Don't forget!

As you are aware children are allowed to bring a bottle of water into school everyday to help them stay hydrated especially during the hot weather. Please do not send your child to school with a glass bottle as they are very easily smashed when dropped. It would also be a good idea for the children to bring a hat to school to protect them when they play or learn outdoors this term. Please put your child's name inside. Please remember children should be wearing their Fit Friday t shirts every Friday as this part of the school uniform. T - shirts can be found on the school's website.

Keep in touch!
