

## Weekly Newsletter - 28/01/22

Dear Parents,

I can hardly believe that this is already the last newsletter for January! The month has flown by. As the covid situation starts to slowly ease, we are still working hard at school to get all our children back on track with their learning. I cannot stress enough how important it is that they attend school every day, unless they are too ill to do so or have tested positive for covid. Next week we will start having online safety workshops across the whole school. A company called Open View will be using puppets and drama to make your child aware of how to keep themselves safe online. In keeping with government guidelines, we will no longer be asking parents to wear facemasks on site, although this remains a recommendation in order to reduce the spread of covid. Finally another plea from the school to please park further away from the school and walk the rest of the way. This will really help reduce carbon emissions around the school. Have a lovely weekend.

Best wishes  
Ms Von

# TATE MODERN

## We are ambitious for our pupils!

At Star we aim to give all our pupils experiences that will impact on their learning. In year 2, pupils have been exploring Printing and Collage in Art. To enhance their understanding of great artists, the year group have been heading off into central London to the Tate Modern. 2S and 2P thoroughly loved exploring the Galleries world class collection. 2V will be exploring the gallery on Monday. If your child is in year 2, ask them about the vast space in the Turbine Hall or if they found any self portraits in the gallery?

NO DISCRIMINATION

It is important to be proud of who we are. Make a '**Proud To Be Me**' factsheet or poster. You might want to include your favourite foods, colours, activities, or places you like to go. Think about what things you've included that make you unique and proud to be you.

## Super Planet League update:

After working very hard to earn points for our climate change league games, we are proud to announce we are in the top 25 schools! We are currently number 23 and we have completed 410 goals. This has earned us 18 school trees. We are urging everyone to get out this weekend, and do something green- eat a vegetarian meal, recycle, be active. Let's climb that league table and help save our planet!
