

## Weekly Newsletter - 01/04/2022

Dear Parents and Carers,  
This week has been an absolutely wonderful way to end the term. It was so lovely to see parents in school again for parents evening last Wednesday night. Thank you for all your wonderful feedback and positive comments.

I am pleased to inform you that the governors have now approved the permanent adoption of the current times of the school day. Thank you to everyone who took part in the survey. **I'm pleased to say that the name pulled out of the draw was Asma Bibi (Y4 parent).** This means that we will continue to start the day at 7:50 each morning. I will however be taking on board the views and suggestions made by parents who voiced concerns and we will be working closely with those parents to make sure they are supported in this matter.

Tuesday was a real showcase of all the wonderful opportunities we have here at Star and I can't wait to share the final video with pupils, parents and staff. Have a safe and happy Easter holiday. School will reopen on Tuesday 19th April.

Ms Von

### The Big Dance

Thursday was the climax of a term of dance for our children. Each year group learnt 3 different genres of dance and performed them to their teachers. With snow in the morning we were very grateful to see the sun in the afternoon. Children were full of smiles and excitement and our dance leaders did an amazing job.

### Year 4 Church Visit

Year 4 joined children from 2 local schools to take part in an Easter Experience at Memorial Community Church in Plaistow. The aim of the workshop was to find an answer to the big question, 'Why is Easter important to Christians?' The children were given the opportunity to participate in 2 workshops which included drama, art, gardening, singing, calligraphy and body moves. The children had a fantastic time and using the knowledge they had learnt this term in R.E. really impressed the organisers with their understanding and ability to answer all questions well.

### Holiday homework

*we are ambitious for our pupils!*

We have set a creative challenge for you over the break. Next half term is our **Global Treasures** topic. This is when History and Design and Technology are a big focus for our learners. *To give your children a head start complete the tasks sent out today!* We want to see you all **researching, designing and making** historical artefacts for an exhibition in the summer term.

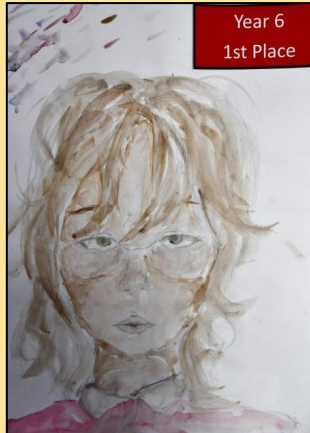

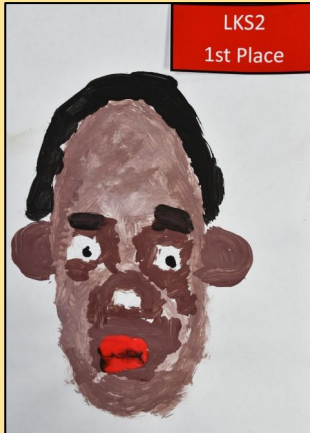

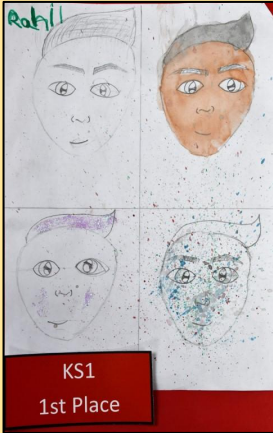

The actors were brilliant and presented the challenges that were faced by the characters very well. **Maryam 6R**

I found the play really inspiring because of how Marvin believed in himself and is following his dream to be the next David Attenborough. **Zaidan 6E**

### Year 6 Stratford Theatre

Year 6 went to the Stratford Youth Zone to watch a performance of Marvin's Binoculars.
