

Week beginning

13.06.2022

Year 5 Newsletter

STAR moments

This week's happy leaves go to:

5R: Farhan, for coming into the last term with a positive, "can do" attitude.

Farhan is making sure he is working at an appropriate pace and finishing his work to a better quality. He is more focused and has worked super hard on his time management. Keep it up Farhan!

5T: Arfan, for always having such a positive attitude to his learning and school. He is always focused and pushes himself to the best of his abilities. He is a good role model and influence for his partners.

5P: Scott, for taking on the challenge of growing his own plant. Scott has been putting a lot of work into reading all about plants and how they grow. He then successfully planted and grew many plants at home and some in school. He is an excellent role model. Keep it up Scott!

This week's learning...

As mathematicians, this week pupils will be extending their knowledge of perimeter and area. The topic begins with pupils finding the perimeter of a polygon constructed from other polygons. They then move on to looking at constructing shapes with the same perimeter but a different area.

As readers, the children will continue following the story of Rory Rooney, to discover how he helps to avoid a pandemic and save people's lives!

As writers, the children will begin to research and write a persuasive letter back to the Government, persuading them not to ban all PE lessons! They will use their knowledge from previous weeks to support them in including all the features of a persuasive letter in their writing.

In R.E. we be looking at influential figures in our lives. We will use our thoughts about them to discuss how they have affected us and what lessons we should take from them.

In Computing, we will be describing some strategies, tips or advice to promote health and wellbeing with regards to technology.

As scientists, the children will be looking at the development of a baby. We will compare gestation periods across different animals, before looking at the changes that happen to the baby whilst it is in the womb.

On Thursday 16th June, Year 5 will be taking part in the CEME STEM Workshop in Rainham. We will be aiming to be back by 3:30pm. Your child must have consent as we will be returning after school hours. Please ensure you have checked your ParentMail and given consent by Tuesday 14th June. If your child takes medication please ensure their medication is in school and in date.

Don't forget!

PE is on Wednesday so you need to come into school dressed in your PE kit with black trainers!

Fit Friday is on Friday so you need to come into school dressed in your Fit Friday kit with black trainers!

School starts at 7:50am each morning and finishes at 2pm each day.

Don't forget to wear your school uniform.

Over to you...Home learning

Don't forget to log on to Mathletics and complete the work assigned to you each day!

Continue to improve your reading skills by logging onto Bug Club each day. Remember to share a chapter from your favourite book with someone at home too.

Strive to achieve your bronze, silver or gold awards on Times Tables Rockstars too.
