

Week beginning

13.06.2022

Year 6 Newsletter

STAR moments

Golden Lunch

This week's Golden Lunch pupils are:

6E: Ellis 6S: Artemis 6R: Martyna

This week's Happy Leaves are awarded to:

6E: Raphael for being committed to learning and helping others. He supported his partner during Maths when they were using cubes to replicate and describe number patterns

6R: Mohammed for being an excellent role model as a pupil leader for the high standards of behaviour he maintains and the support he gives to others during learning. He explains his ideas to his peers to deepen their understanding, gives feedback and supports others in becoming reflective learners.

6S: Natan for his thorough approach to learning. Natan maintains high standards at all times and is always fully engaged. As a result, his work is always completed to the best of his ability. Well done Natan!

P.E is on Thursdays so please come to school dressed in your P.E. kit with black trainers.

Rights Article 31:

(Leisure, play and culture)

Every child has the right to relax, play and take part in a wide range of cultural activities.

This week's learning...

Shared Reading: We will continue to read our text The Bubble Boy and answer reading comprehension questions.

English: We will be exploring different explanation texts and analysing their key features by looking at their purpose, structure and language features. We will then create an explanation toolkit. We will be making cross-curricular links with Science and explore explanation texts related to a healthy lifestyle and our Science focus; the heart and the circulatory system.

Maths: We will be working on algebra by finding missing numbers in equations and substituting numbers and their values and expressing missing numbers algebraically.

Science: We will be identifying the main parts of the circulatory system in humans and look at how circulatory systems can be different across animals.

Geography: Using Digimap, we will look at the route we took last week in our walk and use six figure grid references to identify the position of physical and human features by using the key and symbols to help identify features.

RE: This week we will be critically evaluating different celebration practices from around the world and give our own views on why they take place.

Computing: We will be completing an 'unplugged' lesson before beginning our coding module. We will also be discussing the pressures that technology can place on someone and how to manage this.

DT: We will be looking at traditional Scottish dishes and analysing their nutritional value. We will explore and compare the information on different food labels so that we can make informed choices about what we eat.

RSE: To support pupils to be prepared for the changes that puberty and adolescence brings, we will be learning about the human life cycle and how a baby is conceived.

Year Six Awards Ceremony

Save the date - Thursday 14th July 6pm.

Our pupils will be designing invitations next week which will be shared with you soon.

Over to you...Homework

As part of our Healthy Hearts and DT topics, when you are out shopping, look at the nutritional labels and compare the nutritional values of any foods or drinks that you buy. Make healthier choices so that you can keep your heart healthy.

Keep in touch!
