Our Learning

This week:

English:

As a writer, we will be continuing our phonics journey using our Read Write Inc books. Children will be learning new sounds, reading and writing everyday.

Maths:

As a mathematicians, pupils will learn different ways of making numbers using number bond diagrams. They will use their understanding of number bonds to create number stories using pictorial representations.

Computing:

We will continue working with our Chromebooks and practice identifying and typing our usernames and passwords to build up our logging in skills. At home discuss the different types of technology you use and where and when you would use a password.

RE:

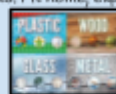

As theologians, we will be looking at the different special ways we get together with our families. Talk to your child about any special celebrations or traditions you have at home. Why are they special?

History:

As historians, we will be continuing to learn about Rosa Parks. We will take a closer look at the event on the bus that made her such an important figure in History.

Science:

As scientists, we will be exploring and identifying the material of different objects. At home, explore different objects. Why have materials been chosen for these objects? Eg. Why are some cups made of plastic?

P.E and Music is scheduled for Monday afternoon. So, remember to come dressed in your correct PE kit. If you are unsure, check the uniform policy on Star's newly designed website or ask your teacher.
