

# Week beginning

05.06.2023

# Year 5 Newsletter

## STAR moments

This week's happy leaves go to:

**5RP: Grace**, for demonstrating self confidence. Grace has settled in really well and has embraced the school values. She always has the confidence to participate in lessons and attempts all tasks with a positive mindset. Keep it up Grace!

**5T: Musab**, for trusting his teammates in DT. Musab and his group had a lot of ideas during our catapult making. Musab trusted his teammates' visions and supported them 100%

**5N: Joel**, for confidently leading his group during our DT day. Joel trusted his own judgement, and that of his peers, coordinating the project in a calm and professional manner. Well done!

Please ensure your child is at the school gate by 7:45am! At Star, we now have Brighter Starts breakfast and singing in class from 7:50 - 8:00am every morning to support your child with starting the day with as much energy as possible.

## Our new topic is...HEALTHY HEARTS!

Our next topic is all about being healthy and active!

As writers, we will be exploring learning how to write persuasive letters. We will be exploring a range of letters and identifying key features to create our very own toolkit.

As readers, the children will begin to explore the adventure story based on Rory who suddenly turns green and becomes a superhero after he eats broccoli!

In Maths, the children will be exploring length and measurement. Children in year 5 will have the opportunity to measure objects and learn about equivalent measurements. For example: 25cm is the same as 0.25m.

In DT we will begin our journey into become bread makers! We will look into different types of bread from around the world and see where they fit into our food diet. This will all lead to us forming research teams to plot out our own recipes and baking our own loaves of bread! To tie into this during our art lessons we will be working toward creating our very own clay bread bin.

As Scientists we will be looking at the changes in humans as we grow older. We will be focusing on what happens as we grow from adults into our older years and the effects of aging. As well as this we will be comparing the pregnancy length and gestation of human with other animals and giving reasons as to why this is.

In R.E. we will be looking at the impact of the figure of Jesus and how it can effect and shape the lives of Christians. We will see what we can learn from bible stories and whether they give good advice on how to live.

In R.S.H.E. we will be learning all about support. We will be exploring who supports us and how we can support others.

In Computing we will be focusing on how to balance our screen time with a healthy and active lifestyle. To do this we will be doing Computing Unplugged! We will be creating our own Rover named Milo out of lego and we will develop our coding knowledge to program his movements!

## Don't forget!

P.E is on Thursday so you need to come into school dressed in your P.E. kit with black trainers!

Remember to wear your Fit Friday kit on Friday!

**A gentle reminder to ensure children are not bringing money into school. They receive plenty of snacks in school which keep them fueled and happy throughout the day. Thank you for your continued support!**

## Over to you...Home learning

Don't forget to log on to Mathletics and complete the work assigned to you each day! Continue to improve your reading skills by logging onto Bug Club each day. Remember to share a chapter from your favourite book with someone at home too.

Strive to achieve your bronze, silver or gold awards on Times Tables Rockstars too.
