

# Week beginning

12.06.2023

# Year 5 Newsletter

## STAR moments

This week's happy leaves go to:

**5RP: Naifah**, for always encouraging and supporting others to achieve their best. During Brighter Starts, Naifah always puts in 100% and encourages her peers to do their best. She is a fantastic role model. Well done Naifah!

**5T: Zaara**, for developing her supportive skills in becoming a sports leader. I have been told about what a great help she was to the Year 2's encouraging their P.E. abilities. Well done Zaara; a leader in the making!

**5N: Jameel**, for bring a constant source of support for those working around him. Jameel always ensures his talk partner is confident in their discussions and prompts them with key words and phrases if needed. Well done, Jameel!

Please ensure your child is at the school gate by 7:45am! At Star, we now have Brighter Starts breakfast and singing in class from 7:50 - 8:00am every morning to support your child with starting the day with as much energy as possible.

## Our new topic is...HEALTHY HEARTS!

Our current topic is all about being healthy and active!

As writers, we will be writing our own persuasive letters using the features we identified last week.

As readers, the children will begin to explore the adventure story based on Rory who suddenly turns green and becomes a superhero after he eats broccoli!

As mathematicians, the children will be exploring capacity and volume. They will be converting between millilitres and liters to understand the measurement unit conversion. For example: 25ml is the same as 0.025L.

As engineers, the children will begin our journey into become bread makers! We will look into different types of bread from around the world and see where they fit into our food diet. This will all lead to us forming research teams to plot out our own recipes and baking our own loaves of bread! To tie into this during our art lessons we will be working toward creating our very own clay bread bin.

As Scientists, the children will be looking at the changes in humans as we grow older. We will be focusing on what happens as we grow from adults into our older years and the effects of aging. As well as this we will be comparing the pregnancy length and gestation of human with other animals and giving reasons as to why this is.

As theologians, the children will be looking at the impact of the figure of Jesus and how it can effect and shape the lives of Christians. We will see what we can learn from bible stories and whether they give good advice on how to live.

## Don't forget!

P.E is on Thursday so you need to come into school dressed in your P.E. kit with black trainers!

Remember to wear your Fit Friday kit on Friday!

### SATs Companion

Your child has now been given a SATs Companion login, this is to support with answering SATs style questions and to prepare them for Year 6. Please encourage your child to spend some time on SATs Companion on a daily basis to support their progression.

## Over to you...Home learning

Don't forget to log on to Mathletics and complete the work assigned to you each day! Continue to improve your reading skills by logging onto Bug Club each day. Remember to share a chapter from your favourite book with someone at home too.

Strive to achieve your bronze, silver or gold awards on Times Tables Rockstars too.
